Steel and Hard Coalers Showed the Best Strength of the Market -Money Was Easy.

New York, June 10 .- The London market was weak in all departments, with a depers commented on the recent decline, ascribing it to sales of American hogs.

of any intention to pay dividend weakened Southern 'Pacific considerably, and the Southern Pacific considerably, and the Southern Pacific considerably, and the street is undoubtedly nervous on the question of financing the heavy commitments of Union Pacific. The buying on the declines was very fair, particularly in the grangers. These latter sold off, on unfavorable anticipations of the Government crop report, to be published after hours, but were well supported on the decline.

The hard coal stocks had some small sympathetic reaction, but resisted active pressure very well and were supported in good quarters.

Steel stocks, after showing considerable weakness, railied on a report that dividend action on the common would be taken seon after the declaration of 7 per cent on the preferred. The tobacco stocks were heavy and lower on the uncertainty as to the value of the bond issue. Insiders were, however, builtish and gave very fair support. All the Pennsylvania officiars deny any intention of acquiring the controlling interest in Atchison, and the rumors of buying for that source in Wabash lacked consirmation. There is considerable talk of Great Northern purchases in Chicago Great Western, and the independent position of the road gives them probability.

There was a marked raily in the market in the later trading, and the continued weakness in wheat indicated that professional opinion did not take so bearish a view of the crop situation as some of the bear operators in the street, Louisville showed strength, and the grangers had a report that the common dividend would be acted on soon after the declaration on the preferred, and would probably be 4 per cent.

Money was easy at 2½ per cent, after touching 3½.
